

Nonprofit Services

Since 1978, Dannible & McKee, LLP has led the way in helping nonprofits operate more efficiently and effectively. We offer a comprehensive set of accounting, audit, tax and management advisory services geared specifically to the needs of those important organizations.

Our nonprofit practice serves many organizations throughout New York State, which are comprised of religious organizations, public charities, private foundations, private schools, country clubs, community organizations and trade associations. We can assist your organization with financial reporting under increasingly complex accounting standards, implementing internal controls to safeguard assets and updating you on impending legislation and the impact it may have on your organization.

Industry Focus

Dannible & McKee offers one of the most experienced nonprofit service teams available. Our team members attend rigorous training, including the AICPA national nonprofit industry conference, the NYSSCPA annual nonprofit conference, local training performed by an AICPA-approved nonprofit expert and other governmental auditing courses. Our team also includes an Accounting Services Assistant, who provides bookkeeping support for for-profit and nonprofit clients.

We provide insights and opportunities on matters of concern to nonprofits such as:
